**BEST BY
ACTUAL TEST**

*"The Choice of
Skilled Metal Workers"*

"HIGH-POWER"

WISS TINNERS' SNIPS

PRECISION GROUND — INLAID STEEL BLADES

The Wiss "High Power Tinnings' Snips" (marked*) are precision ground and specially tempered to cut hard alloy metals such as Stainless Steel, Monel Metal, etc.

Wiss Tinnings' Snips are superior in quality and construction—in shape, in cutting edge, in strength, in test, and in finish.

A piece of the finest Crucible Bar Steel welded to the inner side of their blades gives Wiss Tinnings' Snips a perfect lasting cutting edge—an edge that will not break or chew the work, and which remains sharp an extra long time.

The severe factory tests to which we subject our Snips enable us to guarantee every pair to do its work competently.

SPECIAL NOTE

For cutting especially hard alloy steels we will supply special High-Power Snips, branded "Special for Alloy and Stainless Steels", in several sizes at no extra cost.

These sizes are as follows:

Regular Nos. 8 and 9
Combination Nos. 17 and 18
Bulldog—17 in. and 14 in.

When ordering please specify "Special for Alloy and Stainless Steel".

Reasonable Working Standards for Selecting Wiss Tinnings' Snips

Gauge Galvanized Iron	Regular Pattern Number	Combination Pattern Number	Circular Blade Number
18	6 $\frac{1}{2}$ -7	17	6 $\frac{1}{2}$
19	8	17	7
20	9	18	8
21	10	19	9
22	10	100	10
24	11	100	10
25	12	100	11
*	13	-----	----

Note: When cutting Monel Metal or Nickel Alloy Steel a size larger snip is advisable.

WISS METAL-MASTER SNIPS

Compound Action TWO MATCHED PATTERNS

Furnished to cut either "to left" (M-1) or "to right", (M-2) as illustrated.

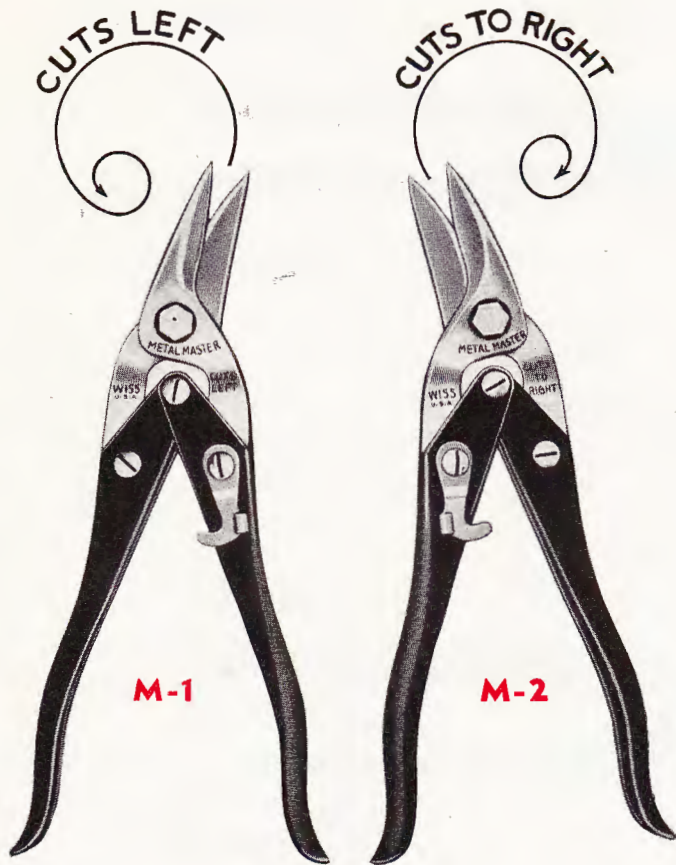

Widely used in the Aviation, Air Conditioning and Sheet Metal Industries.

Cut circles, squares and any irregular patterns on Stainless, Dural and Monel metals with the greatest of ease.

TEN POINTS OF SUPERIORITY

1. Compound Leverage does twice the cutting with half the effort.
2. Widely used in the Aviation, Air Conditioning and Sheet Metal Industries. Cuts intricate designs on Stainless, Dural and Monel Metals.
3. Small, compact size will fit pocket.
4. Will cut ends of tubing, exhaust manifolds, etc.
5. Cutting heads forged from wear-resisting Manganese Molybdenum Steel.
6. Handles hot-pressed from tough Chrome Vanadium Steel.
7. Bolts and Nuts of Nickel steel to Government specifications.
8. All parts interchangeable.
9. Metal-Master Snips made in two matched patterns, (M-1) "Cuts to Left" or (M-2) "Cuts to right" (as illustrated). **Unless otherwise specified, (M-1) "Cuts Left" pattern will be furnished.**
10. Fine serration on both jaws furnished regularly. Deeper serration furnished without cost if specified.

No.	Length	Weight Each	Packed in individual boxes
M-1 (Cuts Left)	10 in.	12 oz.	
M-2 (Cuts Right)	10 in.	12 oz.	

WISS SCROLL PIVOTER 9 X SNIPS

CUTS CIRCLES
SQUARES AND SCROLLS
AS EASILY AS A
STRAIGHT LINE.

Actual photograph of some of the shapes cut with these marvelous new snips.

WISS SCROLL PIVOTER SNIPS

Here's a sensational new snip, the exclusive features of which cannot be appreciated until you have actually cut with it. No other form-cutting snip will do a quicker or better job—in fact, the pivoting principle of this new snip enables it to cut intricate shapes with an incredible ease. It will cut ordinary galvanized sheets up to 18-gauge, and Monel Metal sheets of average thickness. Now furnished with serrated blades unless otherwise specified.

REGULAR BLADE TINNERS' SNIPS (Not Illustrated)

With Handles for Left-Handed Worker

The user can only see the marking on the left side of the blades. We can furnish these snips in all our regular sizes at small additional charge. In ordering use same numbers as our Regular Pattern Snips, but specify for Left-Handed Worker.

LIGHT METAL SNIPS No. J-7

With Curved or Straight Blades

This handy Snip is the best known and most universally popular type used for light metal work, by electricians, tinsmiths, plumbers, jewelers, dental workers and wherever light metal templates or patterns are required to be cut.

It is light — strong — easily handled — made of fine tool steel, accurately tempered, and is ideal for all-purpose light work. It is a surprisingly powerful cutter.

Number	Length	Cut	Wt. per Doz.
J-7	7 in.	1 1/4 in.	3 lbs.
